

S210E

Shotblaster with inline separation

Description

The Shotblaster S210E by Von Arx is the world's first mobile blast machine featuring the innovative "Inline Separation system", doubling blasting capacity compared to previous machines running on single-phase 230V and 110V A.C. Its compact and durable design makes it easy to maneuver in tight spaces, ideal for shotblasting compact to medium concrete and asphalt surfaces, including walkways, garages, and stairs.

Article code

Power

101210001	230V, 50 Hz, 1-phase
101210002	110V, 60 Hz, 1-phase

Technical data

Working width	20 cm / 8"
Weight	50 Kg / 110 lbs
Traction	Manual
Capacity	40m ² /h / 430sqf/h
Hose connection	50mm / 2"

Key features

Inline-Separation.

Height adjustable lever, with integrated control elements.

Extremely easy handling.

Pairs with

Dust extractor **S2**
